

# RED NOSES INTERNATIONAL

## Curriculum

**RED NOSES** Clowndoctors International

Vienna, January 2022

RED NOSES is an artistic organisation bringing humour and laughter to people in need of joy.

For 25 years, RED NOSES has been making a difference for patients, families and medical staff in countless health and care facilities in Europe and beyond. RED NOSES International (RNI) empowers vulnerable audiences, such as children in hospitals, people in geriatric centres, patients in rehabilitation centres, youth with mental and multiple disabilities, refugees and other displaced persons.

The figure of the clown is extremely human and touches individuals deeply by bringing them relief and hope in moments where they cannot connect to their positive emotions.

RNI is based in Vienna, Austria, and is the headquarters for the largest clown doctor group in the world.

# Curriculum

RED NOSES International (RNI) is constantly improving its high artistic quality standards for its artists. In order to achieve this, the RED NOSES Curriculum (which has been installed in 2015) has been revised and changed according to the needs of the group by a group of experts. With this solid and uniformed curriculum, the RED NOSES group seeks to ensure artistic quality by providing the best possible training and education for its clowndoctors.

The curriculum is obligatory for all RED NOSES partner organisations; therefore all clowns are required to complete the certification process. To obtain the “RED NOSES International Certificate”, the applicant is required to complete all curriculum units. It is not mandatory to complete the units in order.

The entire curriculum comprises a total of about 560 hours.

# Table of Content

## **UNIT 01** STEOP (Study Entry and Orientation Phase) [lectures]

- 1.1 Clown Ethics within RED NOSES
- 1.2 Ethics and Drivers of the RED NOSES Group
- 1.3 Structures
- 1.4 Introduction to selected RNI programmes and formats
- 1.5 Theory of Hospital Clowning
- 1.6 History of Clowning

## **UNIT 02** Artistic Studies [workshops]

- 2.1 Clown Discovery Work
- 2.2 Clown/Humour Systems
- 2.3 Clown Partner Work
- 2.4 Clowning in Hospitals
- 2.5 Clowning for the Elderly
- 2.6 Tools

## **UNIT 03** Healthcare Studies & Clinical Exposure [lectures]

- 3.1 Introduction
- 3.2 Diseases, symptoms and healing activity
- 3.3 Illnesses of Elderly People
- 3.4 Hospital Procedures

## **UNIT 04** Psychology [lectures]

- 4.1 Psychology in Hospital
- 4.2 Age Psychology
- 4.3 Psychology, Humour and Healthcare
- 4.4 Humour as a communication Tool

**UNIT 05** **Sociology**

[lectures]

- 5.1 Introduction
- 5.2 Cultural paradigms and social identity
- 5.3 Social and institutional structures

**UNIT 06** **Communication**

[lectures]

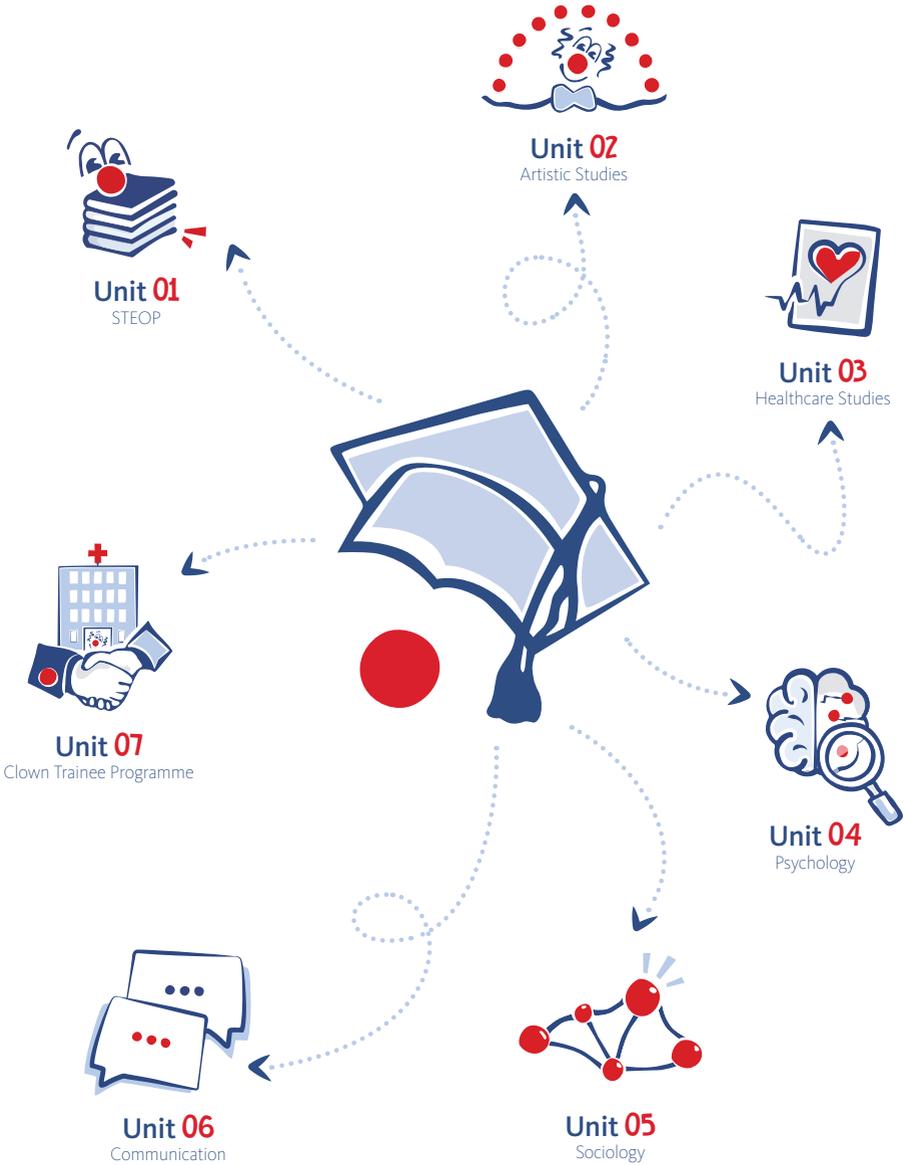

- 6.1 Introduction
- 6.2 Feedback Culture
- 6.3 External Communication

**UNIT 07** **Clown Trainee Programme**

[practical experience]

- 7.1 Hospital Visits
- 7.2 Coaching Sessions

## UNIT OVERVIEW

## STEOP (Study Entry and Orientation Phase)

The STEOP is a necessary introductory unit to get a basic understanding of the ethics, drivers and structures of RED NOSES International (RNI) as well as the theoretical knowledge of hospital clowning.

01	MODULE	Content	Hours
1.1	Clown Ethics within RED NOSES*	<ul style="list-style-type: none"> <li>› Self-conception of the clown's work</li> <li>› Code of Ethics</li> <li>› Demands and duties of the clown</li> <li>› Philosophy of the clown</li> </ul>	1

<b>Total hours</b>			<b>195</b>

## Healthcare Studies & Clinical Exposure

To work in delicate hospital and senior residence settings, it is essential to understand their environment and rules. Understanding the condition/illness of the patient is essential to connect with them.

03	MODULE	Content	Hours
3.1	Introduction	<ul style="list-style-type: none"> <li>› General behaviour in different types of hospitals – Artists in a sensitive environment</li> </ul>	1
3.2	Diseases, symptoms and healing processes	<ul style="list-style-type: none"> <li>› Acute diseases</li> <li>› Chronical diseases</li> <li>› Mental illnesses</li> <li>› Surgery</li> <li>› Oncology</li> </ul>	6
3.3	Illnesses of Elderly People	<ul style="list-style-type: none"> <li>› Common diseases</li> <li>› Dementia</li> <li>› Palliative Care</li> </ul>	4
3.4	Hospital Procedures	<ul style="list-style-type: none"> <li>› Handover rules: data protection, confidentiality</li> <li>› General hygienic rules for hospital clowning</li> <li>› Hygiene rules for projects with special care</li> <li>› Hierarchies of hospital staff</li> </ul>	6
<p><b>Reflection paper:</b> A reflection paper has to be written for the whole unit or a specific module of this unit.</p>			
<b>Total hours</b>			<b>17</b>

## Psychology

The goal of this unit is to enhance the understanding of patient reactions and expectations and to be able to adopt the most comprehensive approach possible.

04	MODULE	Content	Hours
4.1	Psychology in Hospital	<ul style="list-style-type: none"> <li>› Introduction lecture: Common psychology</li> <li>› Psychology in hospital: How does an illness affect the psychology of a child, the family system, etc.</li> <li>› Behavioural and emotional effects of long-term hospitalisation</li> <li>› Children and youth psychiatry: an introduction</li> </ul>	4
4.2	Age Psychology	<ul style="list-style-type: none"> <li>› Psychological development and changes, age-step model</li> <li>› Validation/Communication with the elderly</li> <li>› Dying</li> </ul>	4
4.3	Psychology, Humour and Healthcare	<ul style="list-style-type: none"> <li>› Cognitive development and its relationship to humour</li> <li>› How humour is perceived in various stages of age</li> <li>› Types and variations of humour relevant to healthcare</li> </ul>	4
4.4	Humour as Communication Tool	<ul style="list-style-type: none"> <li>› Evolutionary origins and role of laughter</li> <li>› Humour theories</li> <li>› Effects of using humour</li> </ul>	4

**Reflection paper:** A reflection paper has to be written for the whole unit or a specific module of this unit.

**Total hours**

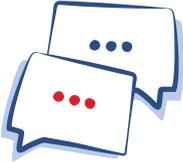

**16**

## Sociology

RED NOSES clowns work in different departments in hospitals and other institutions and with people of all ages. The aim of the unit is to enable specific sociological knowledge to meet the needs for profound clown work in the hospital environment. Furthermore this component of the curriculum provides an understanding of how to interact with people from diverse cultures and ethnicities.

05	MODULE	Content	Hours
5.1	Introduction	<ul style="list-style-type: none"> <li>› Focuses of sociology</li> <li>› Human organisation systems</li> <li>› The beliefs our society is built upon</li> <li>› Social imagination</li> </ul>	2
5.2	Cultural paradigms and social identity	<ul style="list-style-type: none"> <li>› Diversity/variety</li> <li>› Clown and gender</li> <li>› Stereotypes in clowning and prejudices in society</li> <li>› Discuss the role of the clown: Can we heal the traumas of societies?</li> <li>› Explore the blind spots of clowning</li> </ul>	6
5.3	Social and institutional structures	<ul style="list-style-type: none"> <li>› The “clinical gaze”: Concept of health and illness in society</li> <li>› Hospital as a field of action: Hierarchy/ power dynamics</li> </ul>	4
<p><b>Reflection paper:</b> A reflection paper has to be written for the whole unit or a specific module of this unit.</p>			
<b>Total hours</b>			<b>12</b>

## Communication

Good communication is an essential tool in maintaining strong working relationships at all levels of an organisation. In this section of the curriculum, different communication skills are taught to promote governance and ensure a common understanding within the organisation.

06	MODULE	Content	Hours
6.1	Introduction	<ul style="list-style-type: none"> <li>› What is communication?</li> <li>› How does a clown communicate?</li> </ul>	2
6.2	Feedback Culture	<ul style="list-style-type: none"> <li>› How to give and take quality feedback</li> <li>› Feedback practice and peer-review</li> </ul>	5
6.3	External Communication	<ul style="list-style-type: none"> <li>› <b>Public relations</b> Communication with journalists; storytelling for the media, communication with hospital staff and parents on behalf of the organisation</li> <li>› <b>Fundraising/Marketing</b> What do they do and why; donor communication; the language of pictures, colors &amp; graphics</li> </ul>	3
<b>Total hours</b>			<b>10</b>

## Clown Trainee Programme

The Clown Trainee Programme covers practical work in hospitals and comprises four coaching sessions in between the visits. This unit ensures that healthcare clowns complete a minimum of practical work in the hospital, but it is expected that all clowns complete additional visits during the training period.

07	MODULE	Content	Hours
7.1	Hospital visits	➤ 100 visits	
7.2	Coaching sessions	➤ 4 coaching sessions	

*“We as Hospital Clowns are not on the red carpet, our clowns are not on a stage, but we serve and work on a very vulnerable part of life. RED NOSES clowns take their gratitude via these little moments of success. When all spirits of theater joined to turn a visit into an unforgettable experience and souvenir. They do not get fame, but they do it for the gratitude of these special moments, a special smile, the joy that they get. RED NOSES clowns know by now how to treat vulnerable people in need of joy.”*

**Giora Seeliger**, Chief Artistic Officer  
RED NOSES Clowndoctors International

✓ **Workshops:** The clowns are required to attend a minimum of 195 hours of workshops which are taught by internal experts as well as internationally renowned artists. In these 3 or 4 days workshops the clowns work on various disciplines needed for the implementation of RED NOSES clown programmes. After each workshop it is mandatory to fill out an evaluation or write a short reflection/feedback.

✓ **Practical work in hospital & coaching session:** In addition to the workshops, the applicant is required to complete a total of 100 clown visits. The participation in 4 coaching sessions is also a prerequisite. This practical stage is the “Clown Trainee Programme” and comprises an amount of about 312 hours.

✓ **Lectures:** The non-artistic modules consist of a variety of lectures taught by international experts in the field. At the end of selected modules the healthcare clown is required to write a reflection paper.

✓ **External reading:** As part of the lectures, external readings are an additional prerequisite as it is not possible to give all know-how and content in a short lecture.

✓ **Optional:** Exchange programmes are an added value to the clowns’ education and training, therefore and when possible, RNI clowns are encouraged to participate in international cross-border exchange programmes offered by RNI.

✚ **In addition to this curriculum, each healthcare clown must sign the RED NOSES Code of Ethics, the RED NOSES Children and Vulnerable Persons Safeguarding Policy and be willing to attend regular psychological supervisions.**
